

ACCESSORY

P100 Float Pilot

REF EFC-394 ISSUED 05 Jun 2026

SPECIFICATIONS

APPROVALS & CERTIFICATIONS

- ISO 9001

APPLICATIONS

- Reservoir level control
- Tank fill control
- Service reservoir management

FEATURES

- The P100 float pilot senses water level in a reservoir or tank and sends a hydraulic signal to the main control valve
- As level rises, the pilot progressively closes the main valve; as level falls, it opens
- The fully hydraulic operation requires no electrical power
