

ACCESSORY

P400 Flow Rate Control Pilot

REF **EFC-396** ISSUED 05 Jun 2026

SPECIFICATIONS

APPROVALS & CERTIFICATIONS

- ISO 9001

APPLICATIONS

- Flow limiting
- Bulk meter bypass
- Demand management

FEATURES

- The P400 flow control pilot measures differential pressure across an integral orifice and modulates the main valve to maintain a set flow rate
- The pilot is calibrated to the specific flow rate and orifice size
- Used on A400 main valves for bulk flow limiting and demand management
