

CONTROL VALVE

Self-operated Multi-function Regulator

REF **EFC-465** ISSUED 06 Jul 2026

SPECIFICATIONS

Size	DN15 to DN250
Pressure	PN16 to PN40
Temperature	0°C to 350°C
Media	Non-corrosive liquids, Gases, Steam, Water

ACTUATION

- Self-pressurisation (self-operated) — No external driving energy required

APPLICATIONS

- Water supply systems
- Petrochemical processes
- Heating and cooling systems
- Energy industry
- Papermaking
- Food industry
- Steel industry
- Gas production and transportation
- Gas supply and transportation
- Industrial automatic control systems where driving energy is unavailable or cannot be used

Install, operate and maintain in accordance with the manufacturer's manual supplied with the product.

MATERIALS

Body **WCB, CF8, CF8M**

FEATURES

- Operates without any external driving energy
- Pressure balancing function with high sensitivity
- Maintenance-free with reliable performance
- Low noise and smooth operation
- Modular design enabling high standardisation, serialisation and generalisation
- Components can be combined into various types of self-operated regulating valves
